This has been one of the busiest weeks in the history of Parowan, so far as traffic and people are concerned. The streets have been lined with automobiles and the sidewalks thronged with people the greater part of the time. The County Fair, Stake Conference and the term of District Court have combined to make the county seat a bustling little city.

Caesar Myers, well known in Cedar City as a graduate of the local institution of learning, as well as by his marriage to a Cedar City girl (Miss Ethel Macfarlane). Has spent a day or two in town this week, and was accompanied on his return by Mrs. Myers, who has spent a couple of weeks here with her mother and other relatives. Mr. Myers is the county clerk now of Garfield county, and is one of the progressive and influential people of that place. OLD TIMER OF IRON CO. COMES BACK

Returns After 25 Years Spent in East to Make His Home in Best Country on Earth.

J. M. Wilson, who with his two sons is located on homesteads in the Escalante Valley, five miles north of Lund, was in Cedar City yesterday, and made The Record a pleasant call. In the course of our conversation it developed that Mr. Wilson is by no means a stranger to this part of the country, though he informs us that this was his first visit to Cedar City in 26 years. From 1880 to 1889, Mr. Wilson resided in Kanarrville, and under the firm name of Brown & Wilson, was engaged in the sheep business in this county. He claims the distinction of being the first man to ship a car as well as a train load of sheep out of this part of the country by rail. At that time the terminus of the Union Pacific or Oregon Short Line Road was at Milford. The only means of marketing sheep at that time deemed to be feasible was via the long overland trail to the north and east, which often required all summer for its accomplishment. When Mr. Wilson announced his intention of shipping a car of mutton to Chicago as a test, by rail, he was solemnly warned of the risk he was taking, and was advised to take plenty of money along to pay the deficit he was sure to have to meet. When he reached Council Bluffs, Iowa, he sold his car of sheep for a dollar a head more than he had paid for them the purchaser assuming in addition all expenses of transportation.

He returned to Iron and Garfield counties and soon had a train load of mutton en route to the eastern market.

He bought more than 10,000 head of sheep in Iron and Garfield counties for M. E. Gibson of Parks, Nebr., paying from \$2.25 to \$2.75 per head for them. He also bought a large number of the sheep of the old Cedar City Co-op. Sheep Co., and when he left Iron county he shipped 400 head of stock sheep and 40 head of horses to his farm in Illinois. He remembers well some of the men prominent in business at that time, among them Henry Leigh and U. T. Jones who were conducting the old Cedar City Co-op. Store, which was the principal store at that time.

Mr. Wilson and his sons have three homestead entries, and three stock, or grazing entries in this county. He is a practical farmer and they are employing scientific methods in the cultivation of his land, and as a result while some of the homesteaders in that locality are becoming discouraged and are moving away, he is harvesting excellent crops of corn, rye, potatoes, sugar cane, garden truck of all kinds, sudan grass, etc., and practically has their farms on a paying basis.

He is a very interesting character and one that it was a pleasure to meet.

E. PHILLIPS OPPENHEIM

"He is a past master of the art of telling a story. He has humor, a keen sense of the dramatic, and a knack of turning out a happy ending just when the complications of the plot threaten worse disasters."

Thus spoke the literary editor of the New York Times about E. Phillips Oppenheim, the popular English novelist and author of "The Hillman," the new serial we have secured for publication in this paper.

Mr. Oppenheim is without question one of the most widely read authors of the day.

"The Hillman" is a study of character development that is one of the best things this writer has ever done. The plot is ingenious and the romantic element strong and unusual.

Mrs. Lehi A. Thorley gave birth to a fine son on Sept. 10th, at the Southern Utah Hospital, her home now being at Modena. Mother and babe are doing nicely.

Wednesday afternoon Dr. Middleton of the L. D. S. Hospital at Salt Lake City was associated with Dr. A. N. Leonard at the Southern Utah Hospital in operations for Mrs. Albert Lundell and Mrs. Hunter Lunt. The patients are doing nicely at this writing. The operations were of a serious character.

The long dry spell has allowed the roads in this part of the country to become very badly cut up into ruts, and travel is rendered disagreeable and unpleasant thereby. There is no use talking we must surface our roads. To bond the county is the only feasible way of accomplishing it.

PROMISING OPENING OF CEDAR'S SCHOOLS

The Cedar City Public Schools, including the Junior High School, began work Monday, September 10th. In spite of the early date of opening, the attendance is almost normal, which speaks very well for the ideals of the parents in these war times.

The teaching force includes some new faces this year. Mr. E. H. White, former superintendent of Beaver county, is principal.

A number of the primary teachers will work in connection with the training department of the B. A. C. as critic teachers, with Miss Bowman, a very able supervisor from the northern part of the state at their head.

The Junior High School, which is a new venture in Cedar City, gives every promise of being a success. The ninth grade attendance is good, and doubtless there will be others coming in when the B. A. C. opens its doors next week with a school population of over six hundred seeking protection under one roof, the school this year is bound to be lively and interesting.

EARL DENNIS AND MISS VIOLET ROSENBERG WED

Last week Thursday at Parowan Earl Dennis, whose people reside in Georgia, but who has been working for the past year or two in Glendale, Utah, and Miss Violet Rosenberg of this city, were quietly married—so quietly that we did not learn of it until after our last issue was out and the happy couple, accompanied by Mr. Sam Bell of this place and Miss Bertha Stevens of Parowan were on their wedding tour to Zion Canyon and the various principal towns of Dixie.

On Thursday evening at the home of the bride's parents, Mr. and Mrs. Julius Rosenberg, they were given a quiet family dinner, and on Friday night they were tendered a more formal wedding reception, a large circle of their friends and acquaintances being present, and the bride and groom being made the recipients of a large number of handsome and useful presents.

The young people have the congratulations of The Record, and are now at home to their friends at the Rosenberg residence.

Dr. Middleton Talks Road Matters

Dr. G. W. Middleton of Salt Lake City spent yesterday in Cedar City, having come to perform some operations at the Southern Utah Hospital, and found time to drop into our sanctum and chat for a few minutes. The Doctor has not forgotten the time when he was a resident of this county and he still has a fond spot in his heart for its rocks and rills, and pleasant places. He is an enthusiastic admirer of Zion Canyon and the Cedar Canyon and is anxious to do everything in his power to bring these havens to the attention of the touring public, and to make them more easily reached, and he feels that this is the supreme opportunity for the people of Iron and Washington counties to help themselves by the improvement of their roads, and by the obtaining, if possible, of the assistance of the convict camp this winter to complete the approach to the Zion Canyon, from which point the Government has promised to take care of the roads and trails in good shape.

CEDAR CITY'S LATEST U. S. NAVY RECRUITS

Word was received here last Sunday by the folks of Lewis R. Fife and Geo. Albert Smith that they had passed the final examinations and had been accepted in the United States Navy service.

This will come as a surprise to many of the friends and acquaintances of the boys, who were not aware of their intention to enlist, and who did not learn of their departure for the recruiting station.

The lads are the sons of Mr. and Mrs. Jos. S. Fife and of Mr. and Mrs. Albert Smith, respectively, and are of good standing and character in the community. The Record wishes them every success and a safe return. In the mean time we shall be more than pleased to receive letters from any of the boys of the county serving their country at any time. Their friends at home will be glad to keep in touch with them through the columns of the local paper.

Dr. Burton of Parowan is coming down Sunday with some patients for operations by Drs. Stookey and Leonard at the Southern Utah Hospital for throat trouble.

R. T. Mitchell, assistant manager of the Studebaker Brothers Company of Utah, and having direct charge of the automobile division, was in town today on his way home to Salt Lake City from the Grand Canyon and St. George. It is needless to say that Mr. Mitchell is driving a Studebaker car. He reports a pleasant trip, and an absence of trouble of any kind. He went down by way of Panguitch and Kanab.
